	<u>Section 1 Survey Methods, Field Operations & Outputs</u>	9
1.1	<u>Survey Methods Summary</u>	9
1.2	<u>Field Operations Summary</u>	9
1.3	<u>Aims of the Regional Seabed Sampling</u>	10
1.4	<u>Regional Hamon Grab Sampling Methodology, Operations & Outputs</u>	10
1.5	<u>Aims of the 473 East Seabed Sediment Survey</u>	11
1.6	<u>Area 473 East Seabed Sediment Survey Methodology, Operations & Outputs</u>	11
1.7	<u>Objectives of Regional Biological Monitoring Surveys</u>	13
1.8	<u>Drop Down Video Survey Methodology, Operations & Outputs</u>	13
1.9	<u>Epibenthic Communities, Biotopes and Habitats Survey Methodology, Operations & Outputs</u>	14
1.10	<u>Benthic Infaunal and Epifaunal Community Survey Methodology, Operations & Outputs</u>	15
1.11	<u>Scallop Dredge Survey Methodology, Operations & Outputs</u>	16
1.12	<u>4m Beam Trawl Survey Methodology, Operations & Outputs</u>	17
	<u>Section 2 Sample Processing</u>	19
2.1	<u>Introduction</u>	19
2.2	<u>Hamon Grab Samples for Particle Size Analysis</u>	19
2.3	<u>Clamshell Grab Samples for Particle Size Analysis</u>	19
2.4	<u>Macrobenthic Samples</u>	20
2.5	<u>2m Beam Trawl Samples</u>	20
2.6	<u>Scallop Dredge Samples</u>	21
2.7	<u>4m Beam Trawl Samples</u>	21
	<u>Section 3 Data Analysis</u>	23
3.1	<u>Hamon Grab Sample PSA</u>	23
3.2	<u>Clamshell Grab Sample PSA</u>	24
3.3	<u>Digital Video and Stills Images</u>	25
3.4	<u>Macrobenthic Data Analysis</u>	26
3.5	<u>Epifaunal Community Analysis of 2m Beam Trawl Samples</u>	27
3.6	<u>Scallop Dredge Data Analysis</u>	28
3.7	<u>4m Beam Trawl Data Analysis</u>	29

Section 4	Collated Data Analysis and Results	31
4.1	<u>Herring Spawning Potential Assessment</u>	31
4.2	<u>Herring Spawning Potential Assessment Methodology</u>	31
4.3	<u>Herring Larval Survey Data Results and Further Analysis</u>	33
4.4	<u>Archaeology</u>	34
4.5	<u>Fishing Activity</u>	34
4.6	<u>Aggregate Extraction Activity</u>	36
Section 5	Results	39
5.1	<u>Regional Hamon Grab Survey Particle Size Analysis Results</u>	39
5.2	<u>Area 473 East Seabed Sediment Survey Results</u>	39
5.3	<u>Results of Particle Size Analysis of Samples taken during the Clamshell Grab Survey</u>	40
5.4	<u>Regional Static Image Analysis from Hamon Grab Survey</u>	42
5.5	<u>Hamon Grab Survey Infaunal Analysis Results</u>	46
5.6	<u>Regional Infaunal Communities Identified from Hamon Grab Samples</u>	47
5.7	<u>Regional Epifaunal Communities Identified from Hamon Grab Samples</u>	52
5.8	<u>Sidescan Sonar and Video Habitat Survey</u>	58
5.9	<u>2m Beam Trawl Survey Results</u>	61
5.10	<u>Scallop Dredge Survey Shellfish Results</u>	64
5.11	<u>4m Beam Trawl Survey Shellfish Results</u>	64
5.12	<u>4m Beam Trawl Survey Fish Results</u>	65
5.13	<u>4m Beam Trawl Survey - Consideration of 4m Beam Trawl Fish Communities & Combined Epibenthic & Fish Communities Data</u>	69
Section 6	Review of Blueprint Theoretical Frameworks in the Context of the Results of Biological Monitoring	77
Section 7	Discussion and Baseline Description	81
7.1	<u>Review of Works Undertaken During Regional Baseline Monitoring</u>	81
7.2	<u>Regional Seabed Sediment Characteristics</u>	81
7.3	<u>Area 473 East Seabed Sediment Characteristics</u>	82
7.4	<u>Physical Baseline Description</u>	82
7.5	<u>Regional Biological Community Description</u>	84
7.6	<u>Recommendations for Future Surveys</u>	87
7.7	<u>Determination of Suitable Indicators of Change</u>	87

Part 2:	<u>Regional Management Report</u>	89
Section 1	<u>Biodiversity in the ECR</u>	91
1.1	<u>Review of ECR Biodiversity Action Plan in the Context of Regional Monitoring Results</u>	91
1.2	<u>Objectives and Targets of the ECR BAP</u>	91
1.3	<u>Progress Towards Fulfillment of the Objectives of the ECR BAP in the Context of Regional Monitoring Activities 2005-6</u>	92
1.4	<u>ECR Habitat and Species Action Plans</u>	93
1.5	<u>Modification and Amendment of the Objectives, Actions and Targets of the ECR BAP</u>	95
1.6	<u>Future Development of the ECR BAP</u>	96
Section 2	<u>Technical Working Group and East Channel Environmental Network Meeting Proceedings</u>	99
2.1	<u>Introduction</u>	99
2.2	<u>The Technical Working Group</u>	99
2.3	<u>The East Channel Environmental Network</u>	100
2.4	<u>Timing and Format of Future Meetings</u>	101
Section 3	<u>Operational, Navigation and Fishing Liaison</u>	103
3.1	<u>Hamon Grab Sample PSA</u>	103
3.2	<u>Extraction Activity Reporting and Scheduling</u>	103
3.3	<u>Navigation Liaison</u>	104
3.4	<u>Common Measures for Ensuring Navigation Safety During Dredging Operations in the East Channel Region</u>	104
3.5	<u>Fishing Liaison</u>	106
3.6	<u>ECA Fishing Liaison Protocol</u>	106
Section 4	<u>Data Management and the ECA Website</u>	109
4.1	<u>The ECA GIS</u>	109
4.2	<u>Review of the ECA GIS and Recommendations for Future Development</u>	109
4.3	<u>ECA GIS Development Review</u>	110
4.4	<u>ECA GIS Development Recommendations</u>	112
4.5	<u>The ECA Website</u>	114
Section 5	<u>Blueprint v0.3 Update</u>	117
5.1	<u>Introduction</u>	117
5.2	<u>Modification to the Methods Proposed for Monitoring in Blueprint v0.3</u>	117
5.3	<u>Repeat Biological Monitoring 2006</u>	118
5.4	<u>Repeat Monitoring 2007</u>	118
5.5	<u>Development of the Remaining Aspects of Monitoring Described in Blueprint v0.3</u>	120
5.6	<u>Tracer Study</u>	120
5.7	<u>Plume Study</u>	122
5.8	<u>ECR Regional Monitoring Project Plan</u>	123
5.9	<u>Reporting and Review</u>	123

Appendices, Figures and Tables

The appendices, figures, tables, abbreviations, documents and GIS referred to in this report are, where possible, provided as digital files on the accompanying CD-ROMs (see Annexes Sections A – F at the back of this report). The appendices that do not appear on the relevant CD-ROM will be made available online at www.eastchannel.info from the 1st January 2007.

Notes:
